

Transport Policy

The selection of transporters shall be carried out in the same manner as they have been for every other year.

- All transporters are asked to have a cage or dog guard in the vehicle, also to carry a bowl and fresh drinking water.
- A suitable lead and collar should be taken along with poo bags.
- Treats should be taken along.
- Contact numbers for all involved must be provided.
- Clear instructions for meeting points/drop offs.
- Vehicle details to be given to AMCUK Rescue for our records. We will provide each transporter with the details of the car of the links they are meeting.
- While travel times are subject to delays outside of the transporters control, transporters should make every effort to arrive at the arranged time, or at least safely contact the Rescue Liaison, Kennel Liaison /other transporters.
- Ensure mobile and sat navs are charged.
- As transporters are widely spread out and the transport has to be arranged at such short notice it would be near impossible to vet them. Therefore we are asking for a photo of the cage or guard in place.
- All transporters must be over the age of 21
- A photo/photocopy of the transporters driving license will be required.
- Breakdown cover for the vehicle would be preferable.

Whilst we at AMCUK Rescue appreciate all offers of help, for the safety of the dogs, and all concerned can all transport volunteers please ensure that their vehicle is suitable for the journey and risks of breakdown or other issues are minimised.

Alaskan Malamute Rescue is run by the Alaskan Malamute Club of the UK
